Eco-Iveson

Dear Parents/Carers,

As part of our bid to be Eco – Friendly and in response to your feedback as to the most effective way for you to receive information we are going to go paperless!

We know what a challenge keeping up with school letters can be and your response to this showed a clear preference for better use of technologies so you could be assured of being up to date with all things Iveson!

All school letters will be published on our school website: <http://iveson-primary.co.uk/parents/letters/>

We will also send all relevant letters to you directly via **WhatsApp**. Any replies can also be returned by replying directly to the WhatsApp message.

If you currently cannot be contacted this way or have not been receiving our messages, you can:

- Download WhatsApp for free and ensure that we have your updated contact details
- Collect a paper copy from the school office
- Opt out of being paperless and continue to receive paper letters– please contact the school office to inform them if you wish to do this

Our older children have calculated that this move will save school £3,000 per year – they already have plans for what we should spend the money on!

Yours sincerely

*Hayley Marshall*
