BUILDING PROJECT: IVESON425 – Update 30.06.2017

Dear Parents/Carers,

We are all really excited that we are now progressing with the building work and are looking forward to seeing all the exciting plans for the school become a reality.

The builders have worked closely with school to minimise disruption and have planned to start on the weekend of the 15th July when they will begin to convert the Hall into two classrooms. This does of course mean all our end of year productions and celebrations will need to be in the Gym but we believe this is a small price to pay to ensure the classes are ready for September. Children can still access all areas of school but will need to go round the outside at times – we had hoped weather in July would be better for this than September!

In September Year 5 and 6 will be in the newly created classrooms so they will enter and exit school from the doors in the newly created corridor (currently at the side of the Hall).

The rest of Key Stage Two will enter and leave the building from the Key Stage Two playground.

Early Years Parents will be aware that their children are finishing on the 21st July as Leeds City Council have agreed two days so we can empty the Early Years area ready for the extensive improvements we have planned.

The After and Before School areas need to be cleared so building work can commence **we are therefore, unfortunately unable to offer Breakfast and After School Provision on the 24th and 25th of July** we do apologise for any inconvenience this may cause but felt on balance being able to have this provision up and running in September was of utmost importance.

Please note breakfast and after school club will be running in the Dining Room from September. Please enter through the doors at the side of the building near the Hall.

We will keep you updated as work progresses so please look out for updates on Twitter, Facebook, Instagram and the School Website.

We know that this is a very exciting time for Iveson and appreciate your support and patience as we work together to create a school environment that will benefit our children and community.

Plans are available to view in the school entrance and we would encourage you to look at these on the School Open Days.

Yours sincerely,

Hayley Marshall
