Headteacher: Hayley Marshall

Dear Parents/ Carers,

Iveson Primary School has been shortlisted for the M&S Energy Fund. The group with the most votes receives £12,000 which will be used to install smart lighting that enhances children's performance in the classroom and reduces energy-usage.

We want the children to feel involved in this campaign and enter into the spirit of the competition. Therefore we would like to encourage children to gather email addresses from friends and family and any clubs or groups they are part of. **They should not approach any strangers for email addresses.**

There are 2 prizes on offer for the children.

- A prize for the class that collects the most names and email addresses
- An individual prize for the child who collects the most votes in school (The prize will be determined by age of the child and their interests).

Your child will be given a form to collect email addresses. Each name and email address given will enable a vote to be registered and will be used for no other purpose. People can also give as many email addresses as they may have to enable more votes to be registered.

The deadline is 18th October for all email addresses to be returned to school but completed forms can be returned to class earlier so votes can be counted and new forms given out to children.

To vote and learn more about the smart-lighting, go to the following website
<https://www.mandsenergyfund.com/projects/iveson-primary-school>

Yours sincerely

Hayley Marshall
