Headteacher Update

Dear Parents/Carers,

I hope you are all well and managing to keep busy during the lockdown. As the weeks go on we are getting a better understanding of information you might need and the most effective ways we can stay in touch so I thought an update might be useful.

In line with government guidance, we have a limited number of staff on site during this period therefore we will contact you in the following ways:-

- Whatsapp - This will be our main means of communication as it allows us to quickly send and receive messages
- By phone - This will only be as required where we are checking in with families or need to speak about a specific matter - we are aware that some scams are running so please DO NOT give any bank details to anyone claiming to be from or ringing on behalf of the school.

You can contact us by:-

- Whatsapp - This service will be staffed during school hours including the periods we are open over Easter.
- Parental Contact Email - If you need to contact school please follow the contact email link on the school website. Please DO NOT email teachers directly as they are either teaching in school or remotely
- By phone - please note we have asked the admin team to work remotely therefore the phone is only manned for limited periods. Please either contact us using one of the other methods or leave a message on the answerphone and we will reply as soon as possible.

We are in the process of creating a useful tab/area on the website where you can access all information and find contact numbers for support in the meantime this information can be found on the Parent page. Please check our Twitter account, website and Facebook page for information whilst on there take a look at the wonderful video Yad from Y3 has made we were really impressed!

Regards

Hayley Marshall
