

Iveson Primary Online Safety Policy

1. Introduction and aims

Safeguarding is a serious matter; at Iveson Primary School we use technology and the Internet extensively across all areas of the curriculum. Online safeguarding, known as eSafety, is an area that is constantly evolving and as such this policy will be reviewed on an annual basis or in response to incident, whichever is sooner.

This policy and the Staff Acceptable Use Policy is available for anybody to read on the Iveson Primary School website. These policies will also be made available with the Staff Handbook, and upon review all members of staff will sign to acknowledge that they have read and understood them.

A copy of the eSafety Policy and the Students' Acceptable Use Policy will be made available on the website, along with the means to acknowledge agreement and permission. Upon receiving this acceptance of the terms and conditions, students will be permitted access to school technology including the Internet.

For clarity, the eSafety policy uses the following terms unless otherwise stated:

- Users - refers to all staff, volunteers, students and any other person working in or on behalf of the school, including contractors.
- Parents – any adult with a legal responsibility for the child/young person outside the school e.g. parent, guardian, carer.
- School Community – students, all staff, parents.

Information and communications technology (ICT) is an integral part of the way our school works, and is a critical resource for pupils, staff (including the senior leadership team), governors, volunteers and visitors. It supports teaching and learning, and the pastoral and administrative functions of the school.

However, the ICT resources and facilities our school uses could also pose risks to data protection, online safety and safeguarding.

This policy aims to:

- Set guidelines and rules on the use of school ICT resources for staff, pupils, parents and governors
- Establish clear expectations for the way all members of the school community engage with each other online
- Support the school's policies on data protection, online safety and safeguarding
- Prevent disruption that could occur to the school through the misuse, or attempted misuse, of ICT systems
- Support the school in teaching pupils safe and effective internet and ICT use
- To ensure that the requirement is met to empower the whole school community with the knowledge to stay safe and risk free.
- To ensure risks are identified, assessed and mitigated (where possible) in order to reduce any foreseeability of harm to the student or liability to the school.

This policy covers all users of our school's ICT facilities, including governors, staff, pupils, volunteers, contractors and visitors.

2. Relevant legislation and guidance

This policy refers to, and complies with, the following legislation and guidance:

- [Data Protection Act 2018](#)
- The UK General Data Protection Regulation (UK GDPR) – the EU GDPR was incorporated into UK legislation, with some amendments, by [The Data Protection, Privacy and Electronic Communications \(Amendments etc\) \(EU Exit\) Regulations 2020](#)
- [Computer Misuse Act 1990](#)
- [Human Rights Act 1998](#)
- [The Telecommunications \(Lawful Business Practice\) \(Interception of Communications\) Regulations 2000](#)
- [Education Act 2011](#)
- [Freedom of Information Act 2000](#)
- [Education and Inspections Act 2006](#)
- [Keeping Children Safe in Education 2022](#)
- [Searching, screening and confiscation: advice for schools 2022](#)
- [National Cyber Security Centre \(NCSC\): Cyber Security for Schools](#)
- [Education and Training \(Welfare of Children\) Act 2021](#)
- UKCIS guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)
- [Meeting digital and technology standards in schools and colleges](#)

3. Definitions

- **ICT facilities:** all facilities, systems and services including but not limited to network infrastructure, desktop computers, laptops, tablets, phones, music players or hardware, software, websites, web applications or services, and any device system or service which may become available in the future which is provided as part of the school's ICT service
 - **Users:** anyone authorised by the school to use the school's ICT facilities, including governors, staff, pupils, volunteers, contractors and visitors
 - **Personal use:** any use or activity not directly related to the users' employment, study or purpose agreed by an authorised user
 - **Authorised personnel:** employees authorised by the school to perform systems administration and/or monitoring of the ICT facilities
 - **Materials:** files and data created using the school's ICT facilities including but not limited to documents, photos, audio, video, printed output, web pages, social networking sites and blogs
- See appendix 6 for a glossary of cyber security terminology.

4. Unacceptable use

The following is considered unacceptable use of the school's ICT facilities. Any breach of this policy may result in disciplinary or behaviour proceedings (see section 4.2 below).

Unacceptable use of the school's ICT facilities includes:

- Using the school's ICT facilities to breach intellectual property rights or copyright
- Using the school's ICT facilities to bully or harass someone else, or to promote unlawful discrimination
- Breaching the school's policies or procedures
- Any illegal conduct, or statements which are deemed to be advocating illegal activity
- Online gambling, inappropriate advertising, phishing and/or financial scams
- Accessing, creating, storing, linking to or sending material that is pornographic, offensive, obscene or otherwise inappropriate or harmful

- Consensual and non-consensual sharing of nude and semi-nude images and/or videos and/or livestreams
- Activity which defames or disparages the school, or risks bringing the school into disrepute
- Sharing confidential information about the school, its pupils, or other members of the school community
- Connecting any device to the school's ICT network without approval from authorised personnel
- Setting up any software, applications or web services on the school's network without approval by authorised personnel, or creating or using any programme, tool or item of software designed to interfere with the functioning of the school's ICT facilities, accounts or data
- Gaining, or attempting to gain, access to restricted areas of the network, or to any password-protected information, without approval from authorised personnel
- Allowing, encouraging or enabling others to gain (or attempt to gain) unauthorised access to the school's ICT facilities
- Causing intentional damage to the school's ICT facilities
- Removing, deleting or disposing of the school's ICT equipment, systems, programmes or information without permission from authorised personnel
- Causing a data breach by accessing, modifying, or sharing data (including personal data) to which a user is not permitted by authorised personnel to have access, or without authorisation
- Using inappropriate or offensive language
- Promoting a private business, unless that business is directly related to the school
- Using websites or mechanisms to bypass the school's filtering or monitoring mechanisms
- Engaging in content or conduct that is radicalised, extremist, racist, antisemitic or discriminatory in any other way

This is not an exhaustive list. The school reserves the right to amend this list at any time. The headteacher will use their professional judgement to determine whether any act or behaviour not on the list above is considered unacceptable use of the school's ICT facilities.

4.1 Exceptions from unacceptable use

Where the use of school ICT facilities (on the school premises and/or remotely) is required for a purpose that would otherwise be considered an unacceptable use, exemptions to the policy may be granted at the headteacher's discretion.

This permission must be obtained directly from the headteacher.

4.2 Sanctions

Pupils and staff who engage in any of the unacceptable activity listed above may face disciplinary action in line with the school's policies on behaviour, disciplinary policy and safeguarding and child protection.

[Behaviour Policy](#)

[Disciplinary Policy](#)

[Safeguarding and Child Protection Policy](#)

5. Staff (including governors, volunteers, and contractors)

5.1 Access to school ICT facilities and materials

The school's network manager (Primary T) manages access to the school's ICT facilities and materials for school staff. That includes, but is not limited to:

- Computers, tablets, mobile phones and other devices
- Access permissions for certain programmes or files

Staff will be provided with unique login/account information and passwords that they must use when accessing the school's ICT facilities.

Staff who have access to files that they are not authorised to view or edit, or who need their access permissions updated or changed, should contact the school's network manager and business manager.

Requests for access to files/facilities can be made using the Primary T job link.

5.1.1 Use of phones and email

The school provides each member of staff with an email address.

This email account should be used for work purposes only. Staff should enable multi-factor authentication on their email account(s).

All work-related business should be conducted using the email address the school has provided.

Staff must not share their personal email addresses with parents and pupils, and must not send any work-related materials using their personal email account.

Staff must take care with the content of all email messages, as incorrect or improper statements can give rise to claims for discrimination, harassment, defamation, breach of confidentiality or breach of contract.

Email messages are required to be disclosed in legal proceedings or in response to requests from individuals under the Data Protection Act 2018 in the same way as paper documents. Deletion from a user's inbox does not mean that an email cannot be recovered for the purposes of disclosure. All email messages should be treated as potentially retrievable.

Staff must take extra care when sending sensitive or confidential information by email. Any attachments containing sensitive or confidential information should be encrypted so that the information is only accessible by the intended recipient.

If staff receive an email in error, the sender should be informed and the email deleted. If the email contains sensitive or confidential information, the user must not make use of that information or disclose that information.

If staff send an email in error that contains the personal information of another person, they must inform the Headteacher and follow our data breach procedure.

Staff must not give their personal phone number(s) to parents or pupils.

School phones must not be used for personal matters.

Staff who are provided with mobile phones as equipment for their role must abide by the same rules for ICT acceptable use as set out in section 4.

5.2 Personal use

Staff are permitted to occasionally use school ICT facilities for personal use, subject to certain conditions set out below. This permission must not be overused or abused. The Headteacher may withdraw or restrict this permission at any time and at their discretion.

Personal use is permitted provided that such use:

- Does not take place during contact hours
- Does not constitute 'unacceptable use', as defined in section 4
- Takes place when no pupils are present
- Does not interfere with their jobs, or prevent other staff or pupils from using the facilities for work or educational purposes

Staff may not use the school's ICT facilities to store personal, non-work-related information or materials (such as music, videos or photos).

Staff should be aware that use of the school's ICT facilities for personal use may put personal communications within the scope of the school's ICT monitoring activities (see section 5.5). Where breaches of this policy are found, disciplinary action may be taken.

Staff are also permitted to use their personal devices (such as mobile phones or tablets) in line with the school's Mobile Phone Policy.

Staff should be aware that personal use of ICT (even when not using school ICT facilities) can impact on their employment by, for instance, putting personal details in the public domain, where pupils and parents could see them.

Staff should take care to follow the school's guidelines on use of social media (see appendix 1) and use of email (see section 5.1.1) to protect themselves online and avoid compromising their professional integrity.

5.2.1 Personal social media accounts

Members of staff should make sure their use of social media, either for work or personal purposes, is appropriate at all times.

The school has guidelines for staff on appropriate security settings for Facebook accounts (see appendix 1).

5.3 Remote access

We allow staff to access the school's ICT facilities and materials remotely. They should sign into their school Microsoft Office Account).

- Remote Access System
- Managed by Primary T (network manager)
- Password protected individual accounts
- Request remote access via network manager (Primary T)

Staff accessing the school's ICT facilities and materials remotely must abide by the same rules as those accessing the facilities and materials on site. Staff must be particularly vigilant if they use the school's ICT facilities outside the school and take such precautions as the network manager may require against importing viruses or compromising system security.

Our ICT facilities contain information which is confidential and/or subject to data protection legislation. Such information must be treated with extreme care and in accordance with our data protection policy.

[Data Protection Policy](#)

[LCC guidance for Staff working in Educational Settings on the Use of Digital Technologies and Social Media](#)

5.4 School social media accounts

The school has an official Facebook, Twitter and Instagram account, managed by Freya Wilde, Karen Landa and Chelsea Bowes. Staff members who have not been authorised to manage, or post to, the account, must not access, or attempt to access, the account.

The school has guidelines for what may and must not be posted on its social media accounts. Those who are authorised to manage, or post to, the account must make sure they abide by these guidelines at all times.

5.5 Monitoring and filtering of the school network and use of ICT facilities

To safeguard and promote the welfare of children and provide them with a safe environment to learn, the school reserves the right to filter and monitor the use of its ICT facilities and network. This includes, but is not limited to, the filtering and monitoring of:

- Internet sites visited
- Bandwidth usage
- Email accounts
- Telephone calls
- User activity/access logs
- Any other electronic communications

Only authorised ICT personnel may filter, inspect, monitor, intercept, assess, record and disclose the above, to the extent permitted by law. The system used to filter and monitor online use is Primary

Netsweeper. This information is included within the ICT and Internet Acceptable Use policy which is available to parents via the website.

The effectiveness of any filtering and monitoring will be regularly reviewed.

Where appropriate, authorised personnel may raise concerns about monitored activity with the school's designated safeguarding lead (DSL) and ICT manager, as appropriate.

The school monitors ICT use in order to:

- Obtain information related to school business
- Investigate compliance with school policies, procedures and standards
- Ensure effective school and ICT operation
- Conduct training or quality control exercises
- Prevent or detect crime
- Comply with a subject access request, Freedom of Information Act request, or any other legal obligation

The governing board will regularly review the effectiveness of the school's monitoring and filtering systems.

6. Pupils

6.1 Access to ICT facilities

Chromebooks, iPads and equipment in the school's ICT resource cupboard are available to pupils only under the supervision of staff.

Specialist ICT equipment such as that used for music, design and technology or STEM must only be used under the supervision of staff.

Pupils will be provided with an account linked to the school's virtual learning environment, which they can access from any device by using (<https://classroom.google.com>, <https://www.purplemash.com/sch/iveson#/>, <https://trockstars.com/> and <https://scratch.mit.edu/>)

6.2 Search and deletion

Under the Education Act 2011, the headteacher, and any member of staff authorised to do so by the headteacher, can search pupils and confiscate their mobile phones, computers or other devices that the authorised staff member has reasonable grounds for suspecting:

- Poses a risk to staff or pupils, **and/or**
- Is identified in the school rules as a banned item for which a search can be carried out, **and/or**
- Is evidence in relation to an offence

This includes, but is not limited to:

- Pornography
- Abusive messages, images or videos
- Indecent images of children
- Evidence of suspected criminal behaviour (such as threats of violence or assault)

Before a search, if the authorised staff member is satisfied that they have reasonable grounds for suspecting any of the above, they will also:

- Make an assessment of how urgent the search is, and consider the risk to other pupils and staff. If the search is not urgent, they will seek advice from Headteacher/Designated Safeguarding Lead.
- Explain to the pupil why they are being searched, and how and where the search will happen, and give them the opportunity to ask questions about it
- Seek the pupil's co-operation (if the pupil refused to co-operate, you should proceed according to the [Behaviour Policy](#))

The authorised staff member should:

- Inform the DSL (or deputy) of any searching incidents where they had reasonable grounds to suspect a pupil was in possession of a banned item. A list of banned items is available in the [Behaviour Policy](#)
- Involve the DSL (or deputy) without delay if they believe that a search has revealed a safeguarding risk

Authorised staff members may examine, and in exceptional circumstances erase, any data or files on a device that they have confiscated where they believe there is a 'good reason' to do so.

When deciding whether there is a 'good reason' to examine data or files on a device, the staff member should only do so if they reasonably suspect that the data has, or could be used to:

- Cause harm, **and/or**
- Undermine the safe environment of the school or disrupt teaching, **and/or**
- Commit an offence

If inappropriate material is found on the device, it is up to the staff member in conjunction with a member of the senior leadership team to decide on a suitable response. If there are images, data or files on the device that staff reasonably suspect are likely to put a person at risk, they will first consider the appropriate safeguarding response.

When deciding if there is a good reason to erase data or files from a device, staff members will consider if the material may constitute evidence relating to a suspected offence. In these instances, they will not delete the material, and the device will be handed to the police as soon as reasonably practicable. If the material is not suspected to be evidence in relation to an offence, staff members may delete it if:

- They reasonably suspect that its continued existence is likely to cause harm to any person, **and/or**
- The pupil and/or the parent refuses to delete the material themselves

If a staff member **suspects** a device **may** contain an indecent image of a child (also known as a nude or semi-nude image), they will:

- **Not** view the image
- **Not** copy, print, share, store or save the image
- Confiscate the device and report the incident to the DSL (or deputy) immediately, who will decide what to do next. The DSL will make the decision in line with the DfE's latest guidance on [searching, screening and confiscation](#) and the UK Council for Internet Safety (UKCIS) guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Any searching of pupils will be carried out in line with:

- The DfE's latest guidance on [searching, screening and confiscation](#)
- UKCIS guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)
- Our behaviour policy (see updated policy May 2023)
- Any complaints about searching for, or deleting, inappropriate images or files on pupils' devices will be dealt with through the school complaints procedure.

6.3 Unacceptable use of ICT and the internet outside of school

The school will sanction pupils, in line with the [Behaviour Policy](#), if a pupil engages in any of the following **at any time** (even if they are not on school premises):

- Using ICT or the internet to breach intellectual property rights or copyright
- Using ICT or the internet to bully or harass someone else, or to promote unlawful discrimination
- Breaching the school's policies or procedures

- Any illegal conduct, or making statements which are deemed to be advocating illegal activity
- Accessing, creating, storing, linking to or sending material that is pornographic, offensive, obscene or otherwise inappropriate
- Consensual or non-consensual sharing of nude and semi-nude images and/or videos and/or livestreams (also known as sexting or youth produced sexual imagery)
- Activity which defames or disparages the school, or risks bringing the school into disrepute
- Sharing confidential information about the school, other pupils, or other members of the school community
- Gaining or attempting to gain access to restricted areas of the network, or to any password-protected information, without approval from authorised personnel
- Allowing, encouraging, or enabling others to gain (or attempt to gain) unauthorised access to the school's ICT facilities
- Causing intentional damage to the school's ICT facilities or materials
- Causing a data breach by accessing, modifying, or sharing data (including personal data) to which a user and/or those they share it with are not supposed to have access, or without authorisation
- Using inappropriate or offensive language

7. Parents

7.1 Access to ICT facilities and materials

Parents do not have access to the school's ICT facilities as a matter of course.

However, parents working for, or with, the school in an official capacity (for instance, as a volunteer or as a member of the PTA) may be granted an appropriate level of access, or be permitted to use the school's facilities at the headteacher's discretion.

Where parents are granted access in this way, they must abide by this policy as it applies to staff.

7.2 Communicating with or about the school online

We believe it is important to model for pupils, and help them learn, how to communicate respectfully with, and about, others online.

Parents play a vital role in helping model this behaviour for their children, especially when communicating with the school through our website and social media channels.

We ask parents to sign the agreement in appendix 2.

7.3 Communicating with parents about pupil activity

The school will ensure that parents and carers are made aware of any online activity that their children are being asked to carry out.

When we ask pupils to use websites or engage in online activity, we will communicate the details of this to parents in the same way that information about homework tasks is shared.

In particular, staff will let parents know which (if any) person or people from the school pupils will be interacting with online, including the purpose of the interaction.

Parents may seek any support and advice from the school to ensure a safe online environment is established for their child.

8. Data security

The school is responsible for making sure it has the appropriate level of security protection and procedures in place to safeguard its systems, staff and learners. It therefore takes steps to protect the security of its computing resources, data and user accounts. The effectiveness of these procedures is reviewed periodically to keep up with evolving cyber crime technologies.

Staff, pupils, parents and others who use the school's ICT facilities should use safe computing practices at all times. We aim to meet the cyber security standards recommended by the Department for Education's guidance on [digital and technology standards in schools and colleges](#), including the use of:

- Firewalls
- Security features
- User authentication and multi-factor authentication
- Anti-malware software

8.1 Passwords

All users of the school's ICT facilities should set strong passwords for their accounts and keep these passwords secure.

Users are responsible for the security of their passwords and accounts, and for setting permissions for accounts and files they control.

Members of staff or pupils who disclose account or password information may face disciplinary action. Parents, visitors or volunteers who disclose account or password information may have their access rights revoked.

All staff will use the password manager required by the network manager (Primary T) to help them store their passwords securely. Teachers will generate passwords for pupils using the required password manager or generator and keep these in a secure location in case pupils lose or forget their passwords.

For all pupil accounts passwords will be allocated.

8.2 Software updates, firewalls and anti-virus software

All of the school's ICT devices that support software updates, security updates and anti-virus products will have these installed, and be configured to perform such updates regularly or automatically.

Users must not circumvent or make any attempt to circumvent the administrative, physical and technical safeguards we implement and maintain to protect personal data and the school's ICT facilities.

Any personal devices using the school's network must all be configured in this way.

8.3 Data protection

All personal data must be processed and stored in line with data protection regulations and the school's data protection policy.

[Data Protection Policy](#)

8.4 Access to facilities and materials

All users of the school's ICT facilities will have clearly defined access rights to school systems, files and devices.

These access rights are managed by Primary T (network manager)

Users should not access, or attempt to access, systems, files or devices to which they have not been granted access. If access is provided in error, or if something a user should not have access to is shared with them, they should alert Primary T and the Headteacher immediately.

Users should always log out of systems and lock their equipment when they are not in use to avoid any unauthorised access. Equipment and systems should always be logged out of and shut down completely at the end of each working day.

8.5 Encryption

The school makes sure that its devices and systems have an appropriate level of encryption. School staff may only use personal devices (including computers and USB drives) to access school data, work remotely, or take personal data (such as pupil information) out of school if they have been specifically authorised to do so by the headteacher.

Use of such personal devices will only be authorised if the devices have appropriate levels of security and encryption, as defined by the network manager.

9. Protection from cyber attacks

Please see the glossary (appendix 6) to help you understand cyber security terminology.

The school will:

- Work with governors and the IT department to make sure cyber security is given the time and resources it needs to make the school secure
- Provide annual training for staff (and include this training in any induction for new starters, if they join outside of the school's annual training window) on the basics of cyber security, including how to:
 - Check the sender address in an email
 - Respond to a request for bank details, personal information or login details
 - Verify requests for payments or changes to information
- Make sure staff are aware of its procedures for reporting and responding to cyber security incidents
- Investigate whether our IT software needs updating or replacing to be more secure
- Not engage in ransom requests from ransomware attacks, as this would not guarantee recovery of data
- Put controls in place that are:
 - **Proportionate:** the school will verify this using a third-party audit annually to objectively test that what it has in place is effective.
 - **Multi-layered:** everyone will be clear on what to look out for to keep our systems safe
 - **Up to date:** with a system in place to monitor when the school needs to update its software
 - **Regularly reviewed and tested:** to make sure the systems are as effective and secure as they can be
- Back up critical data daily and store these backups on cloud-based backup systems
- Delegate specific responsibility for maintaining the security of our management information system (MIS) to network manager (Primary T).
- Make sure staff:
 - Dial into our network using a virtual private network (VPN) when working from home
 - Enable multi-factor authentication where they can, on things like school email accounts
 - Store passwords securely using a password manager
- Make sure ICT staff conduct regular access reviews to make sure each user in the school has the right level of permissions and admin rights
- Have a firewall in place that is switched on

- Check that its supply chain is secure, for example by asking suppliers about how secure their business practices are and checking if they have the [Cyber Essentials](#) certification
- Develop, review and test an incident response plan with the IT department including, for example, how the school will communicate with everyone if communications go down, who will be contacted and when, and who will notify [Action Fraud](#) of the incident. This plan will be reviewed and tested annually and after a significant event has occurred, using the NCSC's '[Exercise in a Box](#)'
- Work with our Local Authority (Leeds City Council) to see what it can offer the school regarding cyber security, such as advice on which service providers to use or assistance with procurement

10. Internet access

The school's wireless internet connection is secure.

Primary Netsweeper is used for filtering this generates daily reports emailed to the Headteacher and Designated Safeguarding Officer – Mandy Scott, any alerts are investigated by Primary Technology who manage the school systems. Supply staff require a password to access the school Wi-Fi. Parents and the general public do not have access to the school Wi-Fi. If an appropriate site is blocked this can be reported to the schools' provider via an online system, in the event of an inappropriate site been accessed this is reported to the Headteacher (or in his/her absence the most senior member of the leadership team on site). In the event of a child/ren being present it would also be logged on CPoms otherwise it would be logged on the jobs reporting system indicating the site and time of incident and action taken.

10.1 Pupils

Pupils can only access the schools Wi-Fi when working on school equipment with the knowledge and oversight of a member of staff.

10.2 Parents and visitors

Parents and visitors to the school will not be permitted to use the school's WiFi unless specific authorisation is granted by the Headteacher.

The Headteacher will only grant authorisation if:

- Parents are working with the school in an official capacity (e.g. as a volunteer or as a member of the PTA)
- Visitors need to access the school's WiFi in order to fulfil the purpose of their visit (for instance, to access materials stored on personal devices as part of a presentation or lesson plan)

Staff must not give the WiFi password to anyone who is not authorised to have it. Doing so could result in disciplinary action.

11. Monitoring and review

The Headteacher and network manager (Primary T) monitor the implementation of this policy, including ensuring it is updated to reflect the needs and circumstances of the school.

This policy will be reviewed every 2 years.

The governing board is responsible for reviewing and approving this policy.

12. Related policies

This policy should be read alongside the school's policies on:

- Safeguarding and child protection

- Behaviour
- Disciplinary Policy
- Data protection
- Staff Handbook
- Parent Handbook

Acceptable use of the internet: agreement for parents and carers

Name of parent/carer:

Name of child:

Online channels are an important way for parents/carers to communicate with, or about, our school.

The school uses the following channels:

- Our official Facebook, Instagram and Twitter Pages
- WhatsApp (For school announcements and information)
- Our virtual learning platform (Google Classroom)

Parents/carers also set up independent channels to help them stay on top of what's happening in their child's class. For example, class/year Facebook groups, email groups, or chats (through apps such as WhatsApp).

When communicating with the school via official communication channels, or using private/independent channels to talk about the school, I will:

- Be respectful towards members of staff, and the school, at all times
- Be respectful of other parents/carers and children
- Direct any complaints or concerns through the school's official channels, so they can be dealt with in line with the school's complaints procedure

I will not:

- Use private groups, the school's Facebook page, or personal social media to complain about or criticise members of staff. This is not constructive, and the school can't improve or address issues unless they are raised in an appropriate way
- Use private groups, the school's Facebook page, or personal social media to complain about, or try to resolve, a behaviour issue involving other pupils. I will contact the school and speak to the appropriate member of staff if I'm aware of a specific behaviour issue or incident
- Upload or share photos or videos on social media of any child other than my own, unless I have the permission of the other children's parents/carers

Signed:

Date:

Acceptable Use Policy – Year 3, Year 4, Year 5 and Year 6

Agreement of Good Online Behaviour

Note: All internet and email activity is subject to monitoring.

I Promise – to only use the school ICT for schoolwork that a teacher has asked me to do.

I Promise – not to look for or show other people things that may be upsetting or unsafe.

I Promise – to show respect for the work that other people have done.

I will not – use other people’s work or pictures without permission to do so.

I will not – damage school ICT, if I accidentally damage something I will tell my teacher or TA.

I will not – share my password with anybody. If I forget my password, I will let my teacher or TA know.

I will not – Share my password with others or log in using someone else’s name or password

I will not – share personal information online with anyone.

I will not – download anything from the Internet unless my teacher has asked me to.

I will not - Create, link to or post any material that is offensive, obscene or otherwise inappropriate

I will – let my teacher or another member of staff know if anybody asks me for personal information.

I will – let my teacher or another member of staff know if anybody says or does anything to me that is hurtful or upsets me.

I will – be respectful to everybody online; I will treat everybody the way that I want to be treated.

I understand – that some people on the Internet are not who they say they are, and some people can be unkind. I will tell my teacher or another member of staff if I am ever concerned in school, or my parents if I am at home.

I understand – if I break the rules in this agreement there will likely be consequences for my actions and my parents will be told.

Acceptable Use Policy – Reception, Year 1 and Year 2

Agreement of Good Online Behaviour

Note: All internet and email activity may be monitored.

I promise - to always be very careful when using school ICT and to tell my teacher or TA if I damage anything accidentally.

I promise - that I will only do the activity the teacher has asked me to do when using school ICT.

I promise - not to look for or show other people things that may upset them.

I promise - that I will tell the Teacher or TA straight away if I ever see anything upsetting on school ICT.

I promise - to be kind when using school ICT.

I will not - Share my password with others or log in using someone else's name or password

School ICT means: the computers, iPads, laptops and any other technology in school.
